Chapter 5 Novel ingredients & future applications 138

Summary	138
Introduction	138
Phenylethylamine	140
Active & mechanism	140
References	140
Conclusions on efficacy	141
Product application	141
Banaba (Corosolic acid)	142
Active & mechanism	142
References	142
Conclusions on efficacy	142
Product application	142
Cassia Nomame	143
Active & mechanism	143
References	143
Conclusions on efficacy	143
Product application	143
Catalpic acid (Catalpa ovate, CLA)	144
Active & mechanism	144
References	144
Conclusions on efficacy	144
Cichorium intybus (Chicoric acid)	145

Active & mechanism	145
References	145
Conclusions on efficacy	145
Choline L-Bitartrate	146
Active & mechanism	146
References	146
Conclusions on efficacy	146
Product application	147
Cissus Quadrangularis (CQR)	147
Active & mechanism	147
References	147
Conclusions on efficacy	148
Product application	148
Evodiamine	148
Active & mechanism	148
References	149
Conclusions on efficacy	149
Product application	149
Green coffee bean extract (GCBE) & Chlorogenic acid	150
Active & mechanism	150
References	150
Conclusions on efficacy	150
Product application	150
Hordenine (Barley extract)	151
Active & mechanism	151
References	151
Conclusions on efficacy	151
Product application	152
Nopal cactus/ Prickly pear cactus	152
Active & mechanism	152
References	152
Conclusions on efficacy	153
Product application	153
N-oleoyl-phosphatidyl-ethanolamine (NOPE)	154
Active & mechanism	154
References	154
Conclusions on efficacy	154
Product application	155
Omega-3	155
Active & mechanism	155
